

Lab 6

Deadline: June 4th at 9:00 a.m.

Based on the sample program given in lecture slides, add two more tetrominos. Show that the two tetrominos you just add appear in the output of the main function.

Hand-in Rules

Your GitLab account shall have a repository lab6, which includes the following things:

1. Your *.cpp* and *.h* files.
2. A *Makefile*.
3. A *README.md* file showing how to compile your program as well as the running script.
